Grant Quiller, and Paul Sullivan joined late

2. We got the OPN 135 approved! Yay

3. Numbers

a. Compliance

i. FEDs want 2% Silica inspections

	Yearly	Monthly	YTD		
			Goal	Goal	Total
Health hazards emphasis inspections East	45	4	13		
Health hazards emphasis inspections West	45	4	71		
Health hazards emphasis inspections- Total	90	8	84		

	Total	Silica	Asbestos	Isocyanates	Lead	Chromium
East	13	3	8	0	3	2
West	71	35	13	16	8	6
Total	84	38	21	16	11	8

38/2410=1.4%; in actuality more like 1.8%

Under the Federal OSHA NEP, 2% of all inspections must address silica. Currently, 1.8% of inspection in NC have addressed silica. Over 2% of inspection addressed silica prior to the pandemic.

b. Consultative (Blair)

i. 158 health hazard consultations have been completed this year. 115 consultations have addressed silica. 17 consultations have had sampling.

c. ETTA (Cory)

i. 16 training events have been held this year, with a goal of 18

ii. 238 individuals trained during these events
