

## CSHO Progression Notebook

**Instructions:** Tab 3 will include all supervised accompanied inspection evaluations and reports: CSHO Accompanied Inspection Reports (AIR), inspection activity reports for consultative visits and inspection activity for agriculture visits.

***Note:** The same form will be used for the AIRs, consultative visits, and agriculture visits.*

Save the forms to your desktop and complete them after each inspection and place it in Tab 3. Combine all same type of evaluations and visits together (i.e., CSHO AIRs, CSB AIRs) and separate by using colored paper between them.

The following form will be used by the Lead CSHO for evaluation trainees during inspections and informal training (i.e., OSHA Express).

***Note:** This form will be given directly to the district supervisor and is not to be included in the CSHO Progression Notebook, however it will be provided by the district supervisor to the bureau chief at their six-month training progression review and when recommended for being cut-loose.*

### **Tab 3 – Inspection Reports and Evaluation for Inspections**

- CSHO Supervised Accompanied Inspection Reports (AIR)
- Inspection Activity Reports for Consultation Visits
- Inspection Activity Reports for Agriculture Visits
