Attendees: Kristie Hall, Ric Schumann, Kevin Obarr, Jacopo Wiggins, Chris Jasion, Blair Byrd, Courtney Phillips, Cory Dunphy, Doreen Makaya, Dennis Berwyn, Chris Moore, Kevin McGuire, Lisa Rayborn, Lee Peacock, Katie Perry, Jill Warren, Grant Quiller, Rob Maedje

## II. Intro (Matt)

- a. Welcome

## III. Old business:

- IV. Compliance- I3 inspections completed for the FY, slightly below the goal of 15.
- V. Consultative- 50 consultations YTD, four Surveys with sampling conducted.
- VI. ETTA- Goal for 20 ETTA events – conducted five events.
  - trained 105 employees
- VII. Equipment/Lab update, Asheville is trialing new SKC NoiseCHEK. Meeting with vendor for hands on orientation.
- VIII. Dry Cal Calibration
  - CSHO was concerned that their primary calibration standard was past due and would need to void samples.
  - A review of the status of orders with manufacturer, revealed a back log and provided an estimate for return to OSH district offices.
  - In the interim, CSHOs can continue to use calibrators until they receive the ones that are being serviced.
  - Samples do not need to be voided. A review with the manufacturer and internal discussions showed that the way NC DOL uses, stores, and maintains the calibrators, they are expected to be within tolerances and can continue to be used until newly serviced units are received.

## IX. New Business

- a. Compliance update (Matt)
- b. Sampling update (Ric)

# Health Hazard OPN 135 Quarterly Meeting – April 2023
