

**North Carolina Department of Labor
Occupational Safety and Health**

Raleigh, NC

Field Information System

CPL 2 (01-01)

Subject: *Site Specific Targeting*

Discussion: This federal instruction describes OSHA's Site Specific Targeting plan for inspections, with a revised site-specific targeting plan for the year 2001. The CPL provides basic information about the OSHA Date Initiative (ODI). North Carolina OPN 124C provides state-specific guidance for targeting employers for inspection.

Action: References to the Field Information Reference Manual (FIRM) and Regional Administrator will mean the North Carolina Operations Manual and the appropriate OSH Division management person (District Supervisor, Bureau Chief, or Assistant Director), respectively.

OSH Division employees will use this CPL in conjunction with OPN 124C as guidance when targeting employers for inspection and when conducting inspections of employers targeted under this program.

This CPL was effective on July 13, 2001. It will remain in effect until revised or canceled by the Director.
